This change has brought Apple the option to release updates every year instead of their traditional every two years or so.. The last update released for OS X 10 8 was made on August 13, 2015 When Apple released Mountain Lion version 10.. The old Mac OS X is now called macOS As, Apple has released the operating system with the only available only on the Mac App Store.. Mountain Lion was the start of macOS being sold free of cost as all of the successors of Mountain Lion were free of cost.. The old Mac OS X is now called macOS As, Apple has released the operating system with the only available only on the Mac App Store.. 8 is the ninth major release of the OS family The goal behind the operating system was to create an OS with better management and synchronizing between different Apple products.. Starting with the Intel build of Mac OS X 10 5 Leopard, most releases have been certified as Unix systems conforming to the Single Unix Specification.. 8 is the ninth major release of the OS family The goal behind the operating system was to create an OS with better management and synchronizing between different Apple products.. The only way to clear the notification was to complete the action associated with the particular alert..
